

KEEP AN EYE ON YOUR
BUSINESS FROM ANYWHERE
WITH A VRX TEXT CONVERTER!

VR2004 POS2DVR Text Converter is Simple!

SAVE YOUR INVESTMENT.
USE YOUR FAVORITE DVR WITH YOUR POS
SYSTEM OR CASH REGISTER.

The VR2004 is an easy to use Video Text Converter. The VR2004 can convert POS Data into a Simple Text Data Stream that can be connected to a Digital Recorder with a serial

POS input. The POS2DVR model works with most Cash Registers, POS Systems, and DVRs.

- Expand Your Existing DVR POS Compatibility List
- Simple and Easy to Setup, Typically Delivered Pre-Configured
- Keyword Alarm Functions
- Serial Interface Supports Pole Displays and Journal Printers
- Converts POS Output to Simple Text Format
- OSD Configuration and Setup
- Parallel Interface Supports attached Journal Printer
- Excellent Technical Support

“ Text Converters help reduce Inventory Shrinkage and Employee Theft. VRX can help you provide an effective tool for monitoring your Store.”

The VR2004 is compatible with most applications and equipment, however if you have an application that we do not currently support, we can work with you to provide a solution that works. If we cannot then we offer a 30 day money back guarantee.

Please call to discuss what wiring/accessories may be needed for your installation and for a free quote
